

They fight with their whole souls

You are reading every day of our boys over there—of Pershing's divisions charging into the blasting fire of the Boche trenches; of small detachments smashing their way from house to house through ruined villages; of single-handed deeds of sacrifice and valor.

One thought, one impulse only fills their souls—to *fight and keep on fighting*, until the war is won.

They know that all America is back of them; they know that they can count on us at home to send them all the guns and supplies they need to win.

There is only one way we can do it. All of us must work and save and buy Liberty Bonds, with our whole souls, the way our men are fighting over there!

No less will win. There is no other way to provide the money the Government must have. No other standard can make the Fourth Liberty Loan a Success.

Lend the way they fight—Buy Bonds to your utmost

WIDE SURVEY OF NURSING RESOURCES.

ington, D. C.—A nation wide survey of the country's nursing resources is now being made by Red Cross workers throughout the United States. The survey has been extended to all possessions, according to a statement made today by the Red Cross War Council. These places will be done by attached to the Fourteenth of the Red Cross which not only all our territories and possessions, but directs American activities of all colonies

of Americans in the most distant parts of the world. Under this plan it is hoped to record every American woman no matter where located capable of nursing or assisting in sickrooms. The survey is being made at the request of Secretary of War, Baker and Surgeon General Gorgas of the army, its purpose being to get definite information regarding the number of nurses which may be withdrawn for War Service without endangering civilian needs of the country. The necessity for having such information available is emphasized by the present epidemic of Spanish influenza. Some communities

where the complaint is prevalent are said to be short of nurses. American Red Cross workers connected with three thousand five hundred chapters of the organization are distributing questionnaires which nurses are to fill out. The survey is to take in every class of nurse, graduate, pupil, practical women who have taken the American Red Cross nursing courses, midwives and hospital attendants. —W.S.S.— Misses Rachel McLaurin and Archie Quinn were the week-end guests of Mr. and Mrs. Hermes Gautier at Biloxi.

The Princes of Germany Are Shaking Dice for the United States!

By Herbert Quick

WE must buy bonds to the last cent of our ability, because our country is fighting for its very life. Make no mistake, citizens of America, the crisis is just that—we are fighting for our very life.

We must fight this war through. We must fight it through to a peace the basis of which will be written by us and our Allies.

Germany must not write a single clause in the Treaty. She must be whipped until she will sign a treaty every word of which will be drawn by the Allies. Germany must not be allowed to dot an i or cross a t.

Why?

Because Germany has become nothing but a robber empire, a murderer empire, an empire every purpose of which is the enslavement of the rest of the world. Such purposes admit of no compromise. We must conquer or die. If we do not conquer we shall, nevertheless, die—and die slaves.

Germany began with the intention of robbing France of her iron, her coal, her best land and her great factories; of making Belgium with her rich mines, great cities and immense factories a part of Germany; of gaining the Belgian coast, from which she might conquer England, and of combining under her flag the hordes of Mohammedan Turks, and all the Balkan States, so that she might train soldiers in countless millions, build navies to sweep the oceans, and conquer the world.

This war was to be a step toward world conquest.

If we do not fight the war through to complete victory she will still keep on and she will succeed. She will surely succeed!

Russia with her nearly 200,000,000 people lies prostrate at Germany's feet. Germany could now give up the Balkan States, give up Belgium, force Austria to yield up the Italian territories, give up conquered France, yes, she could give up these, and even Alsace-Lorraine, and if allowed a free hand in Russia, she would still have won a victory greater than any of which she ever dreamed at the beginning of the war.

Give her control of Russia and she can, and will, within a few years come back with power to take back Alsace-Lorraine, crush poor Belgium once more and destroy exhausted France, sweep every vestige of resistance from Europe, Asia and Africa, and then what?

Then she will thunder at our doors—from Asia she will invade us on the West, from Europe on the East, and from Mexico on the South.

If Germany has control over the terms of peace, we who read this will live to see one of the Kaiser's six sons Emperor of America.

The time to whip Germany is now!

It is now or never!

The Princes of Germany are shaking dice for the United States!

It will take money, money, money, that we may send men, men, men!

Buy Bonds, for so only can the war be won. Unless it is won, everything you possess is lost, and with it the American soul is lost

FIBER CONTAINERS

MAY SAVE TIN.

Experiments having in view a general substitution of wood fiber containers for tin are to be made by the Forest Service. Relief for a decided stringency in the tin can market seems possible only through restricting the use of tin to containers of commodities that can not be satisfactorily packed otherwise.

The Boy From Next Door

YOU used to see him swing gaily down the street, radiant with the vigor of his sturdy young manhood. One day he came home in khaki; then his father told you, with mingled pride and foreboding, that he had "gone across" with his regiment.

Yesterday his name was on the casualty list—"slightly wounded"—and your face grew grave as you thought of the sorrow and suspense of his father and mother.

From every city street, every village, every community, the boy next door has gone to war.

Think of these thousands of splendid young Americans, reared in comfort, peace, and security, now suddenly plunged into that roaring inferno of battle with the hardened hordes of a desperately determined foe.

What are you doing to help them?

What are you doing to arm and protect them, and bring them home in safety? Have you bought Liberty Bonds? Have you bought all you possibly can?

Has it occurred to you that one more Bond, bought with a little additional effort, may save the life of the boy from the next door?

Buy Another Bond!
